

CALL FOR PAPERS

14th International Symposium on Human Aspects of Information Security & Assurance (HAISA 2020)

8th – 10th July 2020

Mytilene, Greece

We cordially invite you to participate in the Fourteenth International Symposium on Human Aspects of Information Security & Assurance. The event will be held over three days, with presentations delivered by researchers from across the international community. Social activities will also be scheduled, ensuring that delegates also have a chance to relax and enjoy some of the many sights that the region has to offer.

The symposium welcomes papers addressing research and case studies in relation to any aspect of information security that pertains to the attitudes, perceptions and behaviour of people, and how human characteristics or technologies may be positively modified to improve the level of protection. Indicative themes include the following list of topics (related topics will also be considered):

- Information security culture
- Awareness and education methods
- Enhancing risk perception
- Public understanding of security
- Usable security
- Psychological models of security software usage
- User acceptance of security policies and technologies
- User-friendly authentication methods
- Biometric technologies and impacts
- Automating security functionality
- Non-intrusive security
- Assisting security administration
- Impacts of standards, policies, compliance requirements
- Organizational governance for information assurance
- Simplifying risk and threat assessment
- Understanding motivations for misuse
- Social engineering and other human-related risks
- Privacy attitudes and practices
- Computer ethics and security

Important dates

20 March 2020	Deadline for submission of papers
1 May 2020	Notification of paper acceptance
29 May 2020	Deadline for camera-ready paper and author registration
