Outline for November 4, 2008

1. Page replacement algorithms
   a. FIFO, OPT, LRU, others
   b. Stack algorithms
   c. Optimizations
2. Page allocation algorithms
   a. How many frames to allocate
   b. Global vs. local allocation
3. Thrashing
4. Applying locality
   a. Principle of locality
   b. Working set model
