

## Extra Credit #2

Revision 1 has the new due date, changed from April 21.

**Due:** April 23, 2021

**Points:** 10

### Questions

1. (10 points) In Figure 4–1, suppose that edge  $t_3$  went from  $s_1$  to  $s_4$ . Would the resulting system be secure? Why or why not?
