

Lecture A1 Outline

Reading: [WB04]

1. Motivation for *traducement*
 - a. Problem of recordation
 - b. Requirements of solution
2. The model
 - a. Ideas, entities, and rules
 - b. Proposition about signer set
 - c. Theorem about state-preserving transformations
 - d. Basic security theorem
 - e. Naming
 - f. Validation of model
3. Consequences
 - a. Practice and use
 - b. Assumptions
